

ECLIPSE HP SERIES

The Eclipse HP (High Performance) is the benchmark in energy efficiency reaching 100+ lumens per watt. The HP is designed to cast the perfect amount of light for residential environments and is complemented with a recessed polycarbonate diffuser and matte white finish.

Installation recommendation:

- 5W - Standard ceiling (up to 3m)
- 8W - High ceiling (>3m)

FEATURES

- Recessed diffuser
- Lightweight, energy efficient
- Thermally resistant polycarbonate construction
- High efficacy
- Wide dimming range
- Compatible with TRIAC dimmers
- Rated IC-4 (can be covered by insulation)
- Driver integrated into lamp body
- IES files available on request
