

HIGH-Q SERIES (INCORPORATED MOTION & DAYLIGHT SENSOR)

The High-Q High Bay ticks all the right boxes. The sleek, sophisticated look allows for installation across retail, commercial and industrial spaces. The High-Q's recessed refractive lens allows the luminaire to achieve very high UGR rating (UGR<22) resulting in low glare. With its integrated dimming motion and daylight harvesting sensor (with on/off switch) the High-Q offers the consumer the option to introduce additional energy savings through smart control gear.
