

TRADITIONAL SERIES

Our Traditional LED High Bays are an ultra-efficient upgrade for a range of existing HID lights. Significant energy savings can be realised, in addition to increased lifetime and considerably lower maintenance costs. Available in 75W, 95W and 135W, they are able to produce extremely high efficiency of 140+ lumens per watt. Most importantly, we use only the best quality components in our High Bays' design, delivering bright, uniform and long-lasting light at a fraction of the energy consumed by HID lighting.

FEATURES

- Tradition shape
- High efficacy
- Meanwell HBG driver
- Efficient heat dissipation
- Operating temp -10°
- 5 year warranty
- IES files available on request

CHARACTERISTICS

POWER FACTOR	>0.9
CRI	>80
BEAM ANGLE	70°
DIMMABLE	1-10V
IP RATING	20
LIFETIME (L70)	>60,000h
WARRANTY	3 Years
