

PHOTOELECTRIC SMOKE ALARMS

Stand-alone

STAND-ALONE (10YR 3V LITHIUM BATTERY)

The Emerald Planet (EP-SA-Li10) Photoelectric Smoke Alarm is powered by a 10yr 3V lithium battery.

This alarm is a stand-alone alarm, fitted with a test/hush/silence button to facilitate testing of the alarm.

The silence function allows the alarm/system to be silenced in the case of a false alarm.

Designed to meet the rigorous new Australian smoke alarm standards (AS3786:2014).

FEATURES

- Stand-alone smoke alarm
- Powered by a non-replaceable 10yr rated Lithium battery
